## PROJECTS

### 1. Kaamlify (Freelance Platform)- [www.kaamlify.com](http://www.kaamlify.com)

A freelance marketplace connecting clients and freelancers, enabling project posting, proposal management, and secure communication. Built with Flutter and Firebase for real-time interactions, authentication, and data synchronization.

### 2. Iview (Social Media App) - <https://iview-download.vercel.app/>

A Flutter + Firebase based social media application with features like image posting, profile management, likes, comments, user search, dark mode, and real-time notifications.

### 3. GoInvoice (Billing System)

A billing and invoicing system developed in **Golang**, supporting customer management, invoice generation, and PostgreSQL database integration.
